I am Rayan, a motivated IT enthusiast with a strong passion for cybersecurity, coding, and website development. I enjoy learning new technologies, solving technical problems, and building practical digital solutions. My interests include strengthening network and system security, improving my programming skills, and developing clean, functional websites. I am committed to continuous growth and developing a solid foundation in the technology and security field.

### WORK EXPERIENCE

Asiacells 2030 - PRESENT

- I have professional experience working with Asiacell in marketing, where I supported customer engagement,

#### Social Media Manager & Graphic Designer — 3 Months 2025

Created and scheduled daily content across multiple social media platforms.

#### Teacher — 2 Years Garmian/Cocar 2023/2025

- I have two years of experience as a teacher, where I delivered lessons clearly and effectively to students at different levels. I prepared learning materials, activities, and assessments to support student

organization 2024 - 2025

- I volunteered at Garmian University within the Career Development Center, where I worked with teams to support students in improving their career skills and finding job opportunities. My role included guiding students, providing information about available opportunities, and helping them prepare for the job market. This experience strengthened my teamwork, communication, and leadership abilities while allowing me to contribute to student success and professional growth.
